### Success On BlackBerry

**Industry:** Legal

**Region:** Asia Pacific

**Company Size:** Large Enterprise - 600 employees

**BlackBerry Alliance Member Solution:** A4P®-Enterprise by AIRTIME-Manager®

"It's no longer necessary to ask lawyers to remember and log all their time – they have a simple system for capturing all the work they do, even when they're mobile."

~ Cora Li, Infrastructure Manager, Deacons

### Challenge

Deacons wanted to capture and bill all the time their lawyers spend on client accounts – even when they are working out of the office away from their computers.

### Solution

Attorneys at Deacons were given A4P-Enterprise by AIRTIME-Manager, an application for their BlackBerry® smartphones designed to track the billable time spent on mobile calls and emails and route that information to the firm's accounting database.

### Deacons' Results

- Lawyers make better use of their time and schedules
- Easy time-tracking solution simplifies the way time is logged
- The firm is more certain it's capturing all billable revenue
- The BlackBerry solution frees up the IT team to work on other priorities
