

BlackBerry Professional Services Rapid Installment Workshop

Deploy with ease

The Rapid Installation Workshop provides guidance and advice to help you install and deploy the BlackBerry® Enterprise Server for the first time, or implement a newly released version so you can get the most value from your BlackBerry solution.

Key features of the three and five-day workshops include:

- Thorough review of the BlackBerry Enterprise Server
- Examination of your current BlackBerry environment and/or advice on building a new BlackBerry environment
- Ways to get the most value from your BlackBerry solution
- Guidance on installation and configuration
- Review of management console
- Best practices for managing users
- Deployment plan development
- How to use the BlackBerry Enterprise Transport Tool
- Review of the BlackBerry monitoring process
- Methods for migrating additional users to your new environment

Before embarking on any new deployment, discover what else a Rapid Installment workshop can do for you by contacting your BlackBerry sales representative or visiting www.blackberry.com/proservices.
