

BlackBerry Professional Services Security Features Workshop

Maximize your BlackBerry Security Features

Be fully confident your vital business information is safe with ongoing analysis of your BlackBerry® Enterprise Server by seeking help from the people who know security best: BlackBerry® Professional Services. Our BlackBerry Enterprise Architect Advisors can show you how to make the most of the industry-leading security features of the BlackBerry solution.

Key features of the three and five-day workshops include

- Comprehensive examination of your BlackBerry IT policies, MDS Connection Services access controls, and application control policies
- Full gap analysis and comparison of your security against best practice security policy and practice
- Development of a heightened security plan, including configuration and implementation of recommended controls
- BlackBerry Enterprise Architect on site collecting information on current security settings and providing you with recommendations on features you should consider
- Interviews with members of your BlackBerry administration and security teams
- Review of lost device process, and more.

No one knows the industry-leading security features of the BlackBerry solution better than BlackBerry Professional Services, and ongoing Security Review analysis is important to keep your precious data locked up tight. To book a Security Features workshop, contact a BlackBerry sales representative today or visit www.blackberry.com/proservices.
