

Administering and Supporting BlackBerry Enterprise Server Software Version 4.1 Service Pack 6 — Part 2

Overview

This instructor-led course teaches BlackBerry® Enterprise Server administrators how to better manage the features and capabilities of the BlackBerry® Enterprise Solution.

Through hands-on exercises, learners will be introduced to managing data transfer, email message filter management, BlackBerry Enterprise Server administration, and troubleshooting. Troubleshooting information and exercises are also included throughout the course.

Who should attend

- BlackBerry Enterprise Server administrators
- IT department staff that support the BlackBerry Enterprise Server
- System integrators
- Solution designers
- Anyone involved in supporting BlackBerry smartphones in a BlackBerry Enterprise Server environment

Topics covered

- Managing data transfer
- Managing email message filters
- Administering the BlackBerry Attachment Service
- Administering mobile data access
- Administering the BlackBerry Collaboration Service
- Troubleshooting BlackBerry Enterprise Server issues

Course Details

Course Code: 716-01138-123

Approximate Duration: 1 day
