

BlackBerry Certified Application Developer

Design. Develop. Experience.

Do you...

- > have development experience and knowledge of BlackBerry® application development?
- > have an understanding of the BlackBerry platform, and Java® technologies?
- > understand the basic constraints involved in mobile application development for the BlackBerry platform?
- > use appropriate development technologies and tools to meet design objectives?

Validate your BlackBerry knowledge with the BlackBerry Certification Program and build your expert reputation.

Become a BlackBerry Certified Application Developer

Here's How:

Register for and take exams at one of Prometric's Testing Centers, which are conveniently located around the world at over 3000 locations!

You'll need to successfully complete two exams for accreditation:

BCP-810: Developing Applications for the BlackBerry Solution

And

BCP 811: Developing Java Applications for the BlackBerry Platform

Get Set for Success

There are a number of resources available to help you prepare for your exams, such as exam guides, pre-exam assessments and self-study materials.
