

BlackBerry Certified Solution Designer

Consult. Plan. Design.

Do you...

- > provide pre and post-sales technical consulting services to BlackBerry® customers?
- > know how to manage and administer the BlackBerry® Enterprise Server?
- > plan and design the deployment of BlackBerry® Enterprise Solutions?
- > have an understanding of network design, including but not limited to DMZ, proxy servers and TCP/IP?

Validate your BlackBerry knowledge with the BlackBerry Certification Program and build your expert reputation.

Become a BlackBerry Certified Solution Designer

Here's How:

Register for and take exams at one of Prometric's Testing Centers, conveniently located around the world at over 3000 locations!

To achieve certification, you'll need to successfully complete two exams:

BlackBerry Certified System Administrator v5.0 certification (BCP-420 or BCP-421)

And one of the following:

BCP-620: Designing and Deploying a BlackBerry Solution in a Microsoft® Exchange Environment

Or

BCP-621: Designing and Deploying a BlackBerry Solution in an IBM® Lotus® Domino® Environment

Get Set for Success

There are a number of resources available to help you prepare for your exams, such as self study and exam guides. Pre-exam self-assessments are coming soon!
